

ACCESS REQUIREMENTS – SAFETY TRAINING MODULES VIA DOOR & ON-SITE INSTRUCTION 2020

Online Safety Instruction Modules via DOOR:

Basic instructions
FLASH
PETRA III
Chemistry lab
Mechanicals
Laser
Strong magnetic fields
Gases
Liquid nitrogen
Liquid helium
Office work
Radioactive sources
X-Ray generators
Biological agents

PETRA III / PETRA III Extension Experimental hutches:

- Modules: Basic Instruction, PETRA III (Online Safety Training via DOOR)
- Specific search permission (beamline manager, beamline scientists)
- Other modules depending on your activities (liquid nitrogen, gases, lasers,...)

Control hutches:

- Modules: Basic Instruction, PETRA III (Online Safety Training via DOOR)

Labs/Preparation:

- Modules: Basic Instruction, PETRA III (Online Safety Training via DOOR)
- On-site instruction (lab responsible staff)

User Chemistry laboratories:

- Modules: Basic Instruction, Chemistry Lab, PETRA III or FLASH (Online Safety Training via DOOR)
- FS Chemistry on-site instruction (M. Lippmann, A. Ciobanu, B. Heilmann)

Biological laboratories (S2) in 47c L045, 047 (P11 User):

- Modules: Basic Instruction, PETRA III, Biological Agents, Chemistry Lab (Online Safety Training via DOOR)
- On-site instruction (J. Müller-Dieckmann)

FLASH Experimental Halls:

- Modules: Basic Instruction, FLASH (Online Safety Training via DOOR)

Laser in 28c/28k: Laserhutch, FLASH Beamlines

- Modules: Basic Instruction, FLASH (Online Safety Training via DOOR)
- On-site instruction
- Other modules depending on your activities (liquid nitrogen, gases, lasers,...)

Information about access restrictions to other DACHS areas could be found on the internal website **DARF-DACHS** (dd.desy.de)
